

Ignition Harness kit Instruction.

1. Remove the Harness from the Nissan Stock Coil.
2. Please also disconnect the coupler on the chassis side. (R32, 33 & 34 GT-R each has different shape coupler)
3. Please fit the DoLuck Harness.
4. Please make sure all the Do Luck parts do not adversely effect to the Factory parts.

5. Please connect the Battery Line to the battery or another power source line.
6. Please be sure to connect the Earth Line to the Chassis.
7. Please Mount the relay firmly with Zip Tie or Bracket.
8. Please check the spark plugs after a few miles driving. If needed upgrade the plugs.

* Please check the spark plugs condition after driving, Up grade the plugs if needed.

Example of the Relay Mounting.
